assistance to the members of backward and minority communities living below double the poverty line.

## **Micro credit Schemes**

Even though there are many agencies operating in the field of credit, the poorest among poor who need loans of very small amount go to private moneylenders, since their requirement is quick delivery of loan at their doorsteps. The intentions of the money lenders have been to exploit the poor instead of helping them and this rather worsened plight of the poor.

The poor have demonstrated their potential for Self-help to secure greater economic and financial strength and many self-help groups have come into existence spontaneously or with active involvement of Non Governmental Organization (NGOs). NGOs, beyond doubt could do much to improve the income of the poor and their families.

Realising it, the KSBCDC Ltd. is implementing Micro Credit Financing through the Non Governmental organizations. The scheme is being implemented using the assistance provided by the NBCFDC/NMDFC.

Micro credit financing in simple terms can be defined as financing Micro credit needs of the poor. The principles under lining Micro Credit finance are

- a) It should be easily available without any complications of lengthy and time consuming identification and documentation.
- b) It should be available at the required time and place so that valuable time is not lost for taking care of small needs of user beneficiaries and user beneficiaries not thrown into the money lender's clutches.
- c) It should be available at an affordable rate of interest to the Self-Help Groups and at a market driven rate to the user beneficiary so that self-help group can build up a reserve and user beneficiary develops repayment habit and discipline.

- d) The Micro Credit Financing will always have to work through the agency of a Self-help group/Non-Governmental organisation which acts as the co-originator and the integrator among the different members of the self-help group and takes collective responsibility for satisfactory credit and repayment management.

**Self-help Group:**

A self help group can be defined as a small group of (not more than 20) members economically homogeneous, socially cohesive group of rural and urban poor who have voluntarily come together for their individual and collective economic upliftment as the main focus.

**Selection of Self-help groups for extending Micro credit Financing:**

In order to ensure that Micro Credit Financing serves the objectives for which it is implemented, rigorous criteria of selecting self-help groups for giving them credit for onward lending to individual members, are absolutely essential.

The following guidelines are hereby issued for selecting the self-help groups for the purpose of giving them credit for Micro Credit Financing activity.

- i. The group should have been formed at least 6 months back i.e., it should have completed 6 months from the date of its formation.
- ii. The group should have been conducting regular meetings and maintaining the records of its proceedings. It is difficult to enforce a strict time frame for defining regularity, but in general, a meeting once every four months or earlier will be considered as, "meeting regularly conducted".
- iii. The group members should have been doing regular savings. The regularity of savings is to be judged with respect to time-frame and not to the amount of savings. Every member individually and group collectively, should have been saving the amount every month. On an average, each member should have been saving minimum ₹ 30/- per month with an overall variation of 10%.
- iv. The group must have made efforts for collective decision making in its meeting and it can be judged by the record of proceedings maintained by the group.
- v. The group should have maintained its accounts in a simple and transparent manner. It should be ensured that the group accounts are maintained by one of its members alone and not by an outsider/Accountant etc.

- vi. If the group has already taken up lending activity, the repayment should be minimum 80% as per the repayment schedule.
- vii. The group should have been preferably registered under any of the existing laws or rules for that purpose or it should have articles of association defining its activities.
- viii. The group leadership should have been elected by the group members either through a process of democratic election or through a process of consensus i.e., it should not be a forced leadership.
- ix. The members of the group including its leaders should not have active political affiliation.
- x. The group normally should not exceed twenty members and should not be less than ten members.
- xi. The group must have an operating account in any of the Bank branches for transacting all their financial transactions, which could be either savings or borrowings or repayments.
- xii. The group should not have used its savings for commercial borrowings to any non-member since its formation.
- xiii. The group should be carrying out only socio economic activities for the welfare of its own members or for community as a whole and in no way should be taking part in any other activity.
- xiv. At least 75% of the members of the self-help group should belong to backward classes/ Minorities in the case may be to enable them to avail assistance under Micro Credit Financing.
- xv. The existing groups which fulfill the above criteria shall also be eligible for Micro Credit assistance.
- xvi. The groups having members below the poverty line should be given preference for extending assistance under Micro Credit and only after the groups below the poverty line (BPL) are exhausted, the groups below double the poverty line will be eligible for assistance.

### **Role of Non-Governmental organization:**

The non-Governmental Organizations (NGOs) acts as a linkage between the KSBCDC Ltd. and the poor people by virtue of their spread in the operational area and rapport with the people. The NGOs after provided with credit by the KSBCDC Ltd, can finance the

poor people through self-help groups. The experience in Micro Credit all over the world has established that non-governmental Organizations act as useful intermediary between funding agencies and poor people.
